Description	<p>The Social Responsibility Club of our Institute initiated Say No to Polythene Bag campaign in the campus. The main objective of this campaign was to make students and people aware of the bad effect of polythene bags on environment, human beings, and animals.</p> <p>The S.D.M. of the city led the campaign. Besides there were many elite members of society who had come to give their tremendous support to this programme. The campaign carried many an activity. As usual the programme started with the motivational and informative lecture from our Director.</p> <p>He apprised the people gathered there of the hazardous effect of the use of Polythene bags. He said that polythene is bio-non-degradable product and can't be eliminated without damaging the environment.</p> <p>When eatables are carried in them, the chemicals used to make them get mixed with them. So polythene bags make the food items poisonous. If the animals chew them, they go to their abdomen and cause them severe pain and most of the time becomes a strong reason for their deaths.</p> <p>He further added that polythene bags cause drainage problem and make the city ugly. The 80% of the total garbage is made of polythene bags.</p> <p>The Chief Guest Chairman Municipal corporation Bhiwani Shri Ransingh Yadav and Vice-chairman Shri Maman Chand also enlightened the people about drawbacks of the use of poly-bags. Students took out a rally carrying placards with various slogans in the city. There was enthusiasm among them and the people of the city. It seemed to be a very successful campaign.</p>
