International Conference on Technical Textiles and Composites

TIT&S Bhiwani

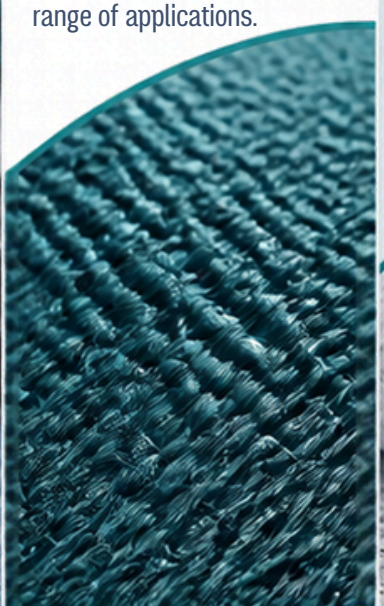

Technological Institute of Textile & Sciences, Bhiwani, India

One-Day Conference
4th December 2026

About the Conference

The International Conference on Technical Textiles and Composites brings together researchers, academics, industry professionals and students to exchange insights on advances, innovation and applications in technical textiles and composites. The conference provides a platform for sharing knowledge, fostering collaboration and exploring the future of advanced materials across a wide range of applications.

Key Themes

- Technical textiles
- Composites
- Smart and functional textiles
- Sustainable materials
- Nonwovens
- Applications in medical textiles
- Applications in automotive textiles
- Applications in aerospace textiles
- Applications in protective textiles

Who Should Attend

- Researchers
- Academicians
- Industry professionals
- Students

Important Dates

Last Date for Abstract Submission:

20th November 2026

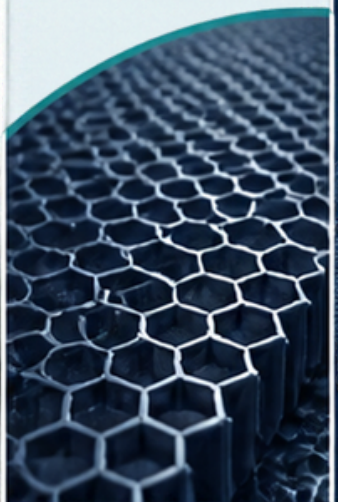

Registration

No Registration Fee; Prior Registration Mandatory
